by CYNOSURE®

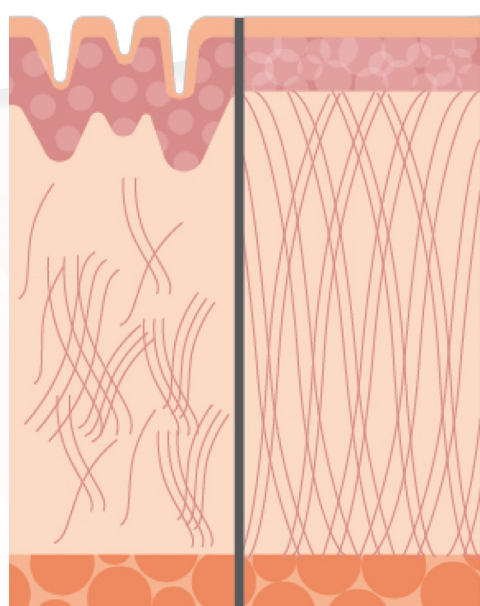

Aging Skin/

As we age, our bodies can't generate collagen as fast as it is depleted¹ – **what can you do?**

RF to the Rescue/

Radiofrequency (RF) promotes collagen growth and tightens skin* to smooth fine lines around the eyes (crow's feet) and mouth, using heat to spark your body's natural ability to generate more collagen.

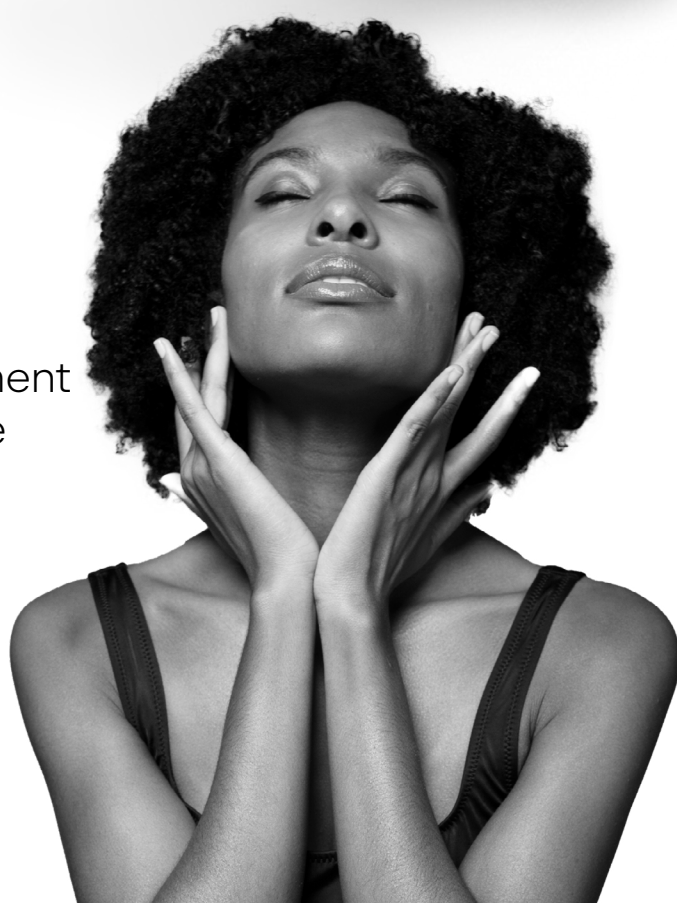

Tempsure Envi/

Takes RF to the next level; it's effective and safe so you can achieve the results you want without pain or downtime.

Comfortable and Convenient/

Sit back, listen to the soothing spa tunes of the TempSure Envi treatment and relax while you experience the gentle warmth of the treatment.
