## THE/ *Problem*

As we age, our bodies can't generate collagen as fast as it is depleted, causing our skin to lose laxity and firmness. As a result, wrinkles and fine lines form leaving you with smile lines, crow's feet and other bothersome creases.

# THE/ *Solution*

Finally there's a solution that works!  
The TempSure Envi treatment minimizes  
fine lines and wrinkles, tightens skin\*.  
It's safe for all skin types so it fits into any beauty  
maintenance routine, any time of the year!

\*Through soft tissue coagulation

## HOW/ *does it work?*

The TempSure Envi treatment gently heats your skin to trigger your body's natural response to produce new collagen.

The new collagen fibers are tight, dense and neatly organized giving you tighter\*, younger-looking skin!

### UNTREATED SKIN

The TempSure Envi treatment targets facial fine lines and wrinkles

### COLLAGEN SYNTHESIS BEGINS

The TempSure Envi treatment delivers radiofrequency technology to gently heat your skin. Increasing the skin's temperature for a defined, therapeutic time will trigger a natural response for your skin to create new collagen.

### COLLAGEN REMODELING OCCURS

The new collagen fibers are tight, dense, and neatly organized giving you tighter\*, younger looking skin.

\*Through soft tissue coagulation

## DURING/ *the Treatment*

During a face-only treatment, you will experience a gentle warming sensation around the target area(s). Most treatments can be performed in under 45 minutes, which makes this a great lunch time option.

Beautiful Skin. Beautifully Simple.

## AFTER THE/ *Treatment*

After the treatment, there is usually only a slight redness of the treated area. This redness generally will subside soon after. You will be able to return to your daily activities immediately following treatment!
